

The iO-TGL Thermostat Guard is meant to protect a wall-mounted thermostat from impact and tampering. It is made of a transparent material that maintains high visibility of the thermostat display while being tough and highly resilient. The iO-TGL is available with either a key (iO-TGL-KEY) or combination (iO-TGL-COMBO) lock.

## Features and Benefits:

- Easy-to-install
- Prevents tampering with your thermostat
- Available with lock and key or combination lock
- Highly ventilated
- High impact plastic
- High visibility
