

DISCOVER THE LD SERIES DAMPERS

YOUR SMART, COST-EFFECTIVE SOLUTION FOR ZONING

These versatile dampers are designed to work flawlessly with all iO HVAC Controls ESP zone control panels, offering a reliable alternative. They are also compatible with other zone systems operating at static pressures less than 1" W.C. LD dampers are available in popular round configurations and rectangular styles with convenient side or bottom mount options.

Powering the LD Series is the robust LD-MOTOR actuator. This 24V power-open/power-close actuator delivers precise 90° rotation and features a built-in bi-color LED for at-a-glance position indication.

Features and Benefits:

- Built-in LED
- 24V, two-position, power open/power close actuator
- Compatible with ESP panels to eliminate bypass
- Quiet operation
- Available in round and rectangular configurations with side or bottom mount options
- 5 year warranty
